## ◦ Skills ◦

### Frontend

Javascript, Bootstrap, React, Angular, MaterialUI, PrimeNG, CSS, SCSS, HTML

### Backend

Flask, Python, Php, Django, MySQL

### Tools

Adobe Photoshop, Linux, Git, GitHub, Canva, Postman Api

### Programming Languages

c, PHP, Python

## ◦ Certifications ◦

### Internship 4.0 - EduHub

Infosys SpringBoard  
July 2024

### Web Development Essentials Certification

Coursera  
July 10, 2023

### Getting Started with Git and GitHub

Coursera  
July 11, 2023

### Angular

Infosys Springboard  
February 2024

## ◦ Volunteering ◦

### College Events Coordination Team

Coordinator  
November 2023

Coordinator, College Events Team:  
Organized and managed logistics for  
events involving 300+ participants,  
ensuring smooth operations.

### Technical Quiz Coordination Team

Supported Coordinator  
November 2023

## ◦ Interests ◦

Web Development

Photography

Technology Integration

Mobile Technology

## Summary

Full Stack Web Developer with hands-on experience building responsive and scalable web applications using Python/Django, React, and Angular. Skilled in API integration, UI/UX optimization, and agile team collaboration. Proven success in delivering 6+ real-world projects and internships with a performance focus.

## Experience

### Al-Zira Technology Pvt Ltd

Frontend Developer Intern  
Remote  
November 2024 - Present

### Infosys Springboard

Angular Dev Intern  
Virtual  
April 2024 - June 2024

Optimized Angular component structure and refactored inefficient scripts, reducing page load speed by 15% and improving UI responsiveness.

## Education

### JNTUA College of Engineering Kalikiri

Computer Science & Engineering  
Bachelor of Technology (B.Tech) - 76%  
October 2022 - May 2025

### Government Polytechnic, Obulavaripalli

Computer Engineering  
Diploma - 85%  
June 2019 - July 2022

## Projects

### Advanced Attendance Management System

Final Year Project | Django, Angular, MySQL, Facial Recognition, GPS  
Developed a smart attendance system using face recognition and GPS-based proximity detection for automated attendance logging and analysis.

### Code Canvas

Mini Project | React.js, SCSS, Material UI  
Built a modern code testing interface for web developers with real-time preview, SCSS-powered styling, and a responsive UI using React and Material UI.

### Spend Smart - Your Personal Finance Tracker

Engineered a full-stack personal finance tracker using React.js, Flask, and MySQL, enabling 500+ users to monitor expenses in real-time, reducing overspending by 25%.

### Dynamic College Results Portal

Developed a MySQL and PHP-based results portal, automating data validation and reducing manual entry errors by 90%, improving accuracy for 2,000+ students

### JVD Payment Data Storing Website

Streamlined data management with a PHP-based system, cutting retrieval time by 40%.

### EduHub - Online Learning Platform

Led frontend development (85%) using Angular and Bootstrap, implementing an advanced search algorithm that improved course discovery speed by 30%.
